Mrs. Eleanor Roosevelt was photographed while visiting with Cpl. Julian Ramirez of Hondo. Ramirez is a patient at the Tokyo Army Hospital, Tokyo, Japan. — A US Army photo by Pfc. Kenneth L. Levitt.

### CPL. JULIAN RAMIREZ MEETS MRS. ROOSEVELT

TOKYO—Army Corporal Julian Ramirez, son of Mr. Julio and Mrs. Udelia Ramirez of 1110 West Ave., Hondo, who was recently wounded while serving with the 7th U. S. Infantry Division in Korea is shown here being visited by Mrs. Eleanor Roosevelt. Cpl. Ramirez was evacuated to Tokyo Army Hospital, Tokyo, Japan, largest and best-equipped hospital of the army forces far east, on April 20, 1953. This huge United Nations Hospital, located in the heart of Japan's capital city and commanded by Colonel Charles L. Kirkpatrick, M. C. is the key medical installation in the treatment of casualties from the Korean battlefield.

Corporal Ramirez entered the army in February 1952 and arrived in the Far East in July 1952. He was awarded the combat infantry badge, the Korean service medal and the United Nations service medal for his services in Korea.

### D'Hanis Water Problem Critical

At a meeting of the Commissioners Court in Hondo on June 8th, Charles Langford, commissioner of Precinct No. 3 reported he was obliged to use his water trucks daily to haul water for domestic use in and around the D'Hanis area, as all the dug wells are going dry.

In the 53rd Legislature a bill for the creation of a water district for D'Hanis was passed. Before any action can be taken, however, a bond must be passed by the citizens of the city for the securing of necessary funds. A board must be appointed also.

The bill provides for the drilling of a central well for the property owners in the district, and provides also for the laying of pipes for the homes.

D'Hanis was faced with this same problem around 1917 and 1939.

### 1700 Ft. Wildcat Begun In Medina

Another wildcat was begun in Medina County this week by R. S. Hays of San Antonio.

The 1,700 well is located about six miles east-southeast of Yancey, and four or five miles south of the old Adams gas field which produces from the Navarro around 900 feet.

### TAI Requests Co-Op Store For Air Base

Charles Larkin, president of the Hondo Chamber of Commerce called a special session of businessmen last Thursday afternoon, upon receipt of a request from Gen. Luther Smith of Hondo Air Base.

Gen. Smith requested that the Chamber of Commerce consider a suggestion by TAI for the establishment of a combination drug store, market, laundry and cleaning establishment, to be located in a building which TAI now has under lease. The General stated that TAI did not wish to put in an establishment which would be in competition with business in Hondo but would be owned, operated and run by the various businessmen in Hondo.

The twelve men representing the various businesses of Hondo in the Chamber of Commerce voted that a two-man committee composed of Charles Larkin, as president of the Chamber of Commerce and O. A. Fly, as mayor and a leading druggist of Hondo, should meet with General Smith to discuss the matter further. It was the opinion of the business men present at the meeting that at this time to be highly impractical, and no one wished to underwrite or subsidize such a business.

Upon meeting with General Smith, Larkin and Fly discussed the matter completely along with Col. John Cape and Col. Dyke Meyer, executives of TAI.

It was particularly emphasized by both Larkin and Fly, that Hondo wishes to cooperate to the fullest with TAI, and realizes the importance of having the base here.

### County GOP Fund Drive

J. S. MacManus, Medina County Republican Chairman, announces that the quota set out by Republican State Headquarters for Medina County is \$300. Part of this is for the National and State Republican organizations.

Any persons desiring to give a subscription will please contact Mr. MacManus.

There have been several recommendations of local people for positions under the Administration. Mr. MacManus is happy to say that these recommendations were received favorably and that there are several appointments forthcoming. At the present time he is waiting for information concerning positions within Medina County.

### L. L. Broom Injured In Farm Accident

NATALIA—L. L. Broom, a dairyman from Natahia, lost the finger of his right hand in an accident which occurred while he was rowbinding corn on the farm of J. N. Hargrove located near Chacon Lake.

Broom idled his machine when he noticed the knotter on the tying machine was not working, and got down to fix the machine. He lost his balance and his hand slipped into the cogs. The extra weight of Broom's hand in the tying machine caused an overload which actually saved the man's arm, as the engine of the machine was killed. Broom was unable to move and remained caught there in the machine for one and a half hours before he was heard by Mrs. Hargrove.

### Medina County Office To Close On June 30

### Reports Are Good On Broom Corn

According to an official report from the Broom and Broom Corn news, in the Millet, Devine and Hondo territory, broom corn is making good growth though rain is needed.

Early crops in the Lampasas district are looking good but considerable acreage in that area has had to be replanted because of the heavy rains of three or four weeks ago. Some advise there is a larger broom corn acreage in that area than last year while others report the acreage is smaller than that of a year ago.

Those crops surviving the 10 to 12 inch deluge are making good progress.

### HENRY BENEDE ACCIDENTALLY BURNS HAND

DEVINE — Henry Benede's left hand was badly burned Monday morning around eleven o'clock with hot tar.

Benede was working on the roof of the old school when the accident occurred. He was rushed to the hospital in San Antonio later returning to Devine.

### The Anvil Herald To Be Included In Archives

On Memorial Day of this year U. S. Senator Saltonstall, and speaker of the House Martin dedicated the largest revolving Globe in the World which is being presented in Massachusetts, by Roger W. Babson of the Babson Institute.

In view of the loyalty of so many newspaper publishers to Mr. Babson and his work his only request has been that a copy of all the U. S. Dailies and a selected list of U. S. Weeklies and Foreign papers be deposited in the concrete cornerstone to be opened up one hundred years hence. The Anvil Herald has been included in the list of U. S. Weeklies.

This "Great Revolving Globe" is being located on the 300-acre campus of the Babson Institute at Wellesley, Mass. It is thirty feet in diameter and weighs with the shafts thirty-seven tons. The countries and cities are located on a scale of 24 miles to the inch, and the Globe will designate the home of the newspapers of 400 cities from which 95 per cent of the population of the United States, Canada, Latin America, Great Britain, France, Italy, West Germany, and the other Free Nations are reading. Copies of these and others, including The Anvil Herald are being deposited in a concrete vault under the cornerstone, upon which will be bolted a bronze plaque with the following inscription:

"This plaque is dedicated to the Newspaper Publishers of the Globe and all persons in their employ. May their work be appreciated, their freedom be protected and their great responsibilities be realized. Only they can bring the nations of this Globe into One United World."

## Personal Appearance

Passing cigars Monday was PRESTON GAINES. PRESTON CHARLES GAINES, II was born 8:25 A. M. Saturday, June 6. He weighed 7 lbs., 1 oz. YOUNG GAINES birthday is the same his grandmother, MRS. C. GAINES. PRESTON SR. reported this makes the seventh birthday in June for the immediate family.

One day last week little DONNA and JOY BELL and ALICIA SIMS collected \$6.69, all on their own for the telethon conducted for cerebral palsy drive.

F. E. BOGGUS formerly of Hondo and now living in San Marcos was in town on Monday visiting relatives and friends.

Friends of the NORMAN RENKENS formerly of D'Hanis and now of Weimar, were mighty glad to see the RENKENS when they were here on a visit last week.

LT. COL. and MRS. GEORGE McCOLLUM will soon be settling down in San Antonio where they are making their home upon the release of COL. McCOLLUM from the Army. The MCCOLLUMS have been visiting in Biri with MRS. MCCOLLUMS' family and relatives, MARVIN, LOUIS, and RANDOLPH HAASS.

RUSS WEPELMAN and DICK YEAGER launched a brand new Cris Craft at Medina Lake Sunday. They assembled it themselves. Reports are that there are plenty of perch especially around the dam. They didn't catch any though, seems they spent the whole day "boating." "Runs perfect," says YEAGER.

Behind the scenes at the B & P meet held in San Antonio, there's a story about PHYLLIS HUMMEL who walked all the way over to Josie's to shop wearing very-very high heels. Came time to fly back to a meeting she could hardly walk so went in and bought herself a new pair of shoes, made it back in time for the meeting.

Then there's the story about MARGUERITE MURRILL who had to stand in the receiving line so long she quietly slipped out of her shoes and received with all the dignity in the world all barefooted.

While on the subject of the B & P, MARY RUTH CAMERON was given two corsages at the meeting the other night, and wore them both. Right diplomatic, and just like MARY RUTH.

We'd love to have a mouse's report on the trip taken by ANNE DAVIS, MRS. R. J. NOONAN and DOROTHY VANCE when they made a "tour" of Villa Acuna last weekend. The group went down to Del Rio for a meeting of the Bar Association.

Yesterday we spied CLARENCE SCHWEERS, the county school superintendent, dragging a huge stuffed sack down the steps. Upon asking him "what goes," he quietly replied "taking my money to the bank."

That very pretty and very good addition to the County Clerk's office is BARBARA GRAFF, a top graduate from Hondo High School this last semester.

Sixteen-year old PAT SMITH, daughter of M-SGT. and MRS. W. J. SMITH, who was Valedictorian of her class at Hondo High School this year, finished four years in three. This past year she needed only one extra credit to be able to finish high school and so took a correspondence course in English from the University of Texas.

Be sure to see the photographs of MEMORIAL DAY Services in the window of our ANVIL HERALD office. Copies of these pictures are available in our office. The paper, you may have noticed elsewhere, has been one of the dailies and weeklies invited to send a copy of its Memorial Day issue to be included in a collection in Boston. The collection will be sealed up and re-opened in the year 2053.

That white Spitz pooch of REV. L. A. McDANIELS' is something of a genius. You should see him perform, good enough for the circus.

CHARLES HARDY, who had his tonsils taken out this past week, has had a change in voice. His mother JANE says its moved from a Tullulah Bankhead throaty, frog-deep kind, up to a high ticklish soprano.

Little tow-headed LINDA and LAURA MOSS, twin daughters of SAM and SARAH MOSS, have had their pig-tails cut off, went to the beauty parlor for the ceremony. They look cute as can be with their new coiffures that sport bangs.

At a meeting of the Devine B and PW last Tuesday evening, FLO GARDNER and MRS. ZULEMA KLINGEMAN were presented special gifts for never having missed a meeting of the group. Retiring president RUBY LEE WHITFIELD was also presented with a gift in appreciation for her outstanding leadership during the year.

## OUR NEW TEXAS LAWS

This is the second in a series of three articles being published by The Anvil Herald. The series will cover the major changes made in our Texas laws by the 33rd Legislature. The bills which have been well-publicized will not be included, only the important changes in our present laws which have almost escaped notice will be given.

### Game Laws

Of particular interest to sportsmen are several general provisions added to our game and fish conservation laws. Formerly, a person's hunting or fishing license was automatically revoked if he was convicted of violating any game laws. Now, the court must determine if the license will be revoked, suspended or left in force.

A total of 53 laws governing the taking of fish, minnows, quail, turkeys, pheasants, deer, squirrel, oysters, and fox were enacted. All of these acts have only state wide application.

A resolution was passed which instructed the Legislative Council to study our present game laws and report back to the next session of the Legislature. This might be a step to eliminate some of more than 1200 different laws governing the taking of wildlife in Texas.

Another law of general interest relates to persons who drive while intoxicated. It is now provided that upon conviction, a jail sentence of from 3 days to 2 years may be imposed; a judge may allow a suspended sentence of 6 months) and a fine of from \$50 to \$500.

### Automobile Laws

For a number of years, a nonresident could operate his car over our highways and when involved in an accident almost always escape paying any damages. If he did pay damages, the cost of suing him in another state took most of what was recovered.

Now, these nonresidents may be sued by serving the State Highway Commissioner, Texas is among the last of the states to adopt this procedure.

### Korean Vets

Another law extends educational benefits to Korean War veterans and their orphan children by permitting them to enter state colleges without paying tuition charges.

### Old Age Assistance

If a person entitled to an old age assistance check, or aid to the blind or dependent children's check, is alive on the first day of the month or when his check is issued and then dies, the Department of Public Welfare may endorse the check and make it payable to the person who took

### BUSINESS IN REVIEW

## LINOLEUM THROUGHOUT IS IDEA OF "IDEA HOUSE"

Every family which owns a home will be interested in this week's business in review brought through the courtesy of Hondo Furniture Company. The product is Armstrong's Linoleum, and the subject the rebirth of a house.

An old out-dated dwelling on the Lincoln Highway outside of Lancaster, Pennsylvania, has recently been remodeled and is known today throughout the country as Armstrong's Idea House.

The purpose for this house is to provide homemakers a place to see inexpensive decorating suggestions that they can adapt to their own homes. To tell everything they did would take a small size book, so we'll take a dab from each of several rooms.

New wallpaper and fresh paint were applied throughout and new floors of Armstrong's Linoleum were installed upstairs and down.

Opening the front door we find the new front hall. The color scheme consists of teal blue, blue-white, and black. The two "waiting" chairs are upholstered in teal blue with white woodwork. All wall woodwork is a very pale blue-white and the wallpaper design has the same bluish background with black butterflies in the design. The whole scheme was suggested from Armstrong's Spatter Linoleum, a style that blends beautifully with either modern or traditional furnishings.

The linoleum colors are white, blue-black, and slight specks of red on a solid black background. The living room was quite a problem and major changes were made to make it comfortable and attractive. A corner-fireplace was anything but attractive. Removing the mantle and refacing the front with paneling from floor to ceiling made it a more integral part of the room, but left the problem of a corner cut off diagonally. To make it less conspicuous they built a corner cabinet in another corner to hold the TV. To soften the appearance of the third corner large green plants were used. In the other corner a permanent card table solved the problem. This diagonal corner was made an asset instead of a liability.

To carry out the diagonal feeling, a tile effect in Armstrong's Linoleum was chosen, and the design laid at a forty-five degree

Miss Jeanne Granieri, daughter of Mr. and Mrs. Joe Granieri of Mico, received the American Legion Award as the outstanding graduate-student at Castroville High School for the year 1952-53.

care of the person before he died.

### FCC

For a number of years the Federal Communications Commission has prohibited a radio station from editing any political speeches. Texas law has provided that the station would be liable for any libelous or slanderous statement going over the airways of the station.

Our new law now provides that where a radio or television station is not allowed to censor the material, it cannot be held liable for damages. Although the person making the statements can still be sued, it appears that our political campaigns will warn up.

### Adm. Tax For Movies Lowered

A number of tax bills were discussed but not acted upon by the Legislature, but one passed which reduced the admission tax for picture shows, plays, etc., where the admission charge exceeds \$80. That same bill also repealed the state tax on free passes.

Another tax bill passed which repealed one of the duplicate taxes set up in two different places. Independent school districts were also given wider taxing powers.

Looking at the 33rd Legislature and the session of two years ago, some interesting comparisons may be made. A total of 927 bills were introduced in the House this year as compared with 831 in 1951. In the Senate, 354 were introduced this session as compared with 475 last session. This year, 432 bills were passed by both Houses and sent to the Governor for signature, while 340 were sent to the Governor in 1951. (The final article will deal with interesting laws signed since adjournment of the Legislature and the bills on the Governor's desk.)

Perhaps it doesn't pay to get too nervous about the present slide in farm prices. We can hope that most of the shakedown has already taken place. But a big debt load is dangerous. If you already have it, then refinancing on a long term basis may be in order, depending upon your present situation.

But keep your debt burden light.

## Short Term Farm Debts

Each year, farmers and ranchers use a large amount of short-term credit to good advantage.

Such credit is usually not secured by a lien on real estate, but is largely repaid within one year, although some runs for a longer period. A quick look at this situation shows that these short term debts increased for 2.9 billion dollars on January 1, 1946, to about 7.6 billion dollars on January 1, 1953.

In the past few years, farm production costs jumped and labor became scarce. This fact encouraged farmers to do more and more of their work with labor-saving machines and to spend more money for fertilizer, farm improvements, and other measures that promote larger output per man-hour of labor.

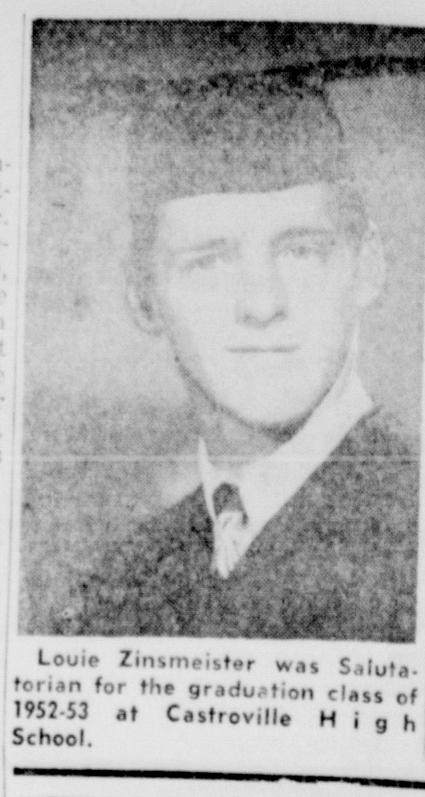

All this requires money. With incomes favorable, farmers have not hesitated to borrow to supply their needs. Many have found it necessary to increase their short-term debt. The total short-term debt for the country as a whole has increased until it is now higher than the farm mortgage debt.

There are signs, however, that the upward trend has been halted. Economists point out that short-term debts did not increase as much in 1952 as in recent years and suggest that farmers may be tightening their debt belts.

This may be a wise move. The outlook points to a lower farm income, in general, than in recent years, and many farmers and ranchers are more careful in assuming their risks of debt. The well-equipped condition of many farms, also, is making the use of short-term credit less necessary in some instances.

Perhaps it doesn't pay to get too nervous about the present slide in farm prices. We can hope that most of the shakedown has already taken place. But a big debt load is dangerous. If you already have it, then refinancing on a long term basis may be in order, depending upon your present situation.

But keep your debt burden light.

## W. A. ENGSTROM INSTALLED IN NATALIA CHURCH

NATALIA — W. A. Engstrom was ordained to the Gospel Ministry and installed as the pastor of the Community Presbyterian Church of Natalia in an impressive service held in the sanctuary last Sunday night at 8 P. M.

150 friends and members of the church attended and welcomed him at the reception which immediately followed in the fellowship hall.

The Rev. G. W. Crofoot of San Antonio led in the worship service and the Rev. Charley Hardest of Raymondville preached the ordination sermon.

The Rev. Frank Walker of Uvalde gave the ordination prayer and charged the minister. His charge will be long remembered by minister and people.

W. F. Lovett of Seguin gave the charge to the congregation. The Rev. Henry Quinius of San Antonio was also a part of the commission of Western Texas Presbytery and read the Scripture Lesson.

The church takes this opportunity to thank all who made this such a meaningful occasion.

Services are held regularly with Sunday School at 9:45 A. M., worship at 11:00 and young people's meeting at 6:30 P. M.

The public is invited to all services.

## D'Hanis Hears Choir From Seminary

By Mrs. Amos Finger

D'HANIS—Lovers of good music who attended Mass in Holy Cross Church Sunday received a treat when they were privileged to hear a choir composed of 8 students from Assumption Seminary. At 8:30 a. m. at the 8 o'clock service the young men sang a two-part Mass and at 9 o'clock they rendered a group of hymns and motets in both Gregorian chant and modern liturgical form notably on "Ave Maria" and "Odo Te Devote." Notable too were the pipe organ accompaniments. The choir was here at the invitation of the pastor, Rev. H. V. Haug.

## HONDO BEARS DEFEAT DEAN'S SPECIALTY 5-3

The Hondo Bears defeated Dean's Specialty nine from San Antonio Sunday by the score of 5-3. Pilo Ramirez went the route for the Bears, allowing the visitors only 4 hits, while his teammates gathered 8 safeties off the visiting pitcher.

Saturday night the Bears will go to Seguin where they hope to avenge their defeat last week by the Aztecs.

Sunday the Bears will play a visiting team at the Village diamond here.

## L. Manade Easy Winner In Shoot Match

The Macdonal Shooting Club held their Medal shoot last Sunday, with fourteen members taking part. L. Manade was an easy winner in rest and offhand, scoring 1100 in rest, and 636 in offhand. Richard A. Biediger who had taken them in March, had to concede to Manade.

Mrs. Rose Biediger was also an easy winner in the rest and offhand with a score of 1074 in rest, and 584 in offhand. The Rest medal will be her personal property, after winning the rest score three successive times, and the offhand for the first time, as Mrs. Laura Jackel, was the holder, winning the same at a score of 597 in March.

Charlie Nentwich, E. O. Schuman, Beatrice Schuman and Arthur J. Vogt ran a perfect score of 75 in one relay.

## MIGNON SPIVEY BADLY INJURED IN AUTO WRECK

DEVINE — Mignon Spivey, daughter of Bill Spivey now of SA and formerly of Devine, and granddaughter of Mrs. Kate Spivey of Devine, is resting fairly well after an auto wreck Saturday night in San Antonio.

Over 100 stitches were taken in Mignon's face. She is in the Baptist Memorial Hospital.

## Brother Rose Returning From Europe

DEVINE — Brother Don Rose is returning home after an extended trip throughout Europe. He is making the return trip on the Queen Elizabeth and will dock the 16th of June in New York. He will be back to take over his duties at the First Baptist Church in Devine on the 21st of June.

### LUTHERAN SERVICES

Sunday School will be held at 9:30 in the morning, and church services will be held at 8:00 in the evening at St. Paul's Lutheran Church in Hondo.

Rev. Durkop will conduct the services.

By Mrs. Estella Strayhorn

**Craft Days:** Each 4-H Club in the County will have a recreation night, a picnic and a Craft Day in the near future. LaCoste girls have had their picnic and recreation night. Mrs. Floyd Haby, Lynette Saathoff, Dunlay; Mary Griggs, Castroville; Norma Tschirhart, LaCoste; and Beverly Flack, Natalia will teach basket weaving, leather tooling, recreation and Nature Study which they learned at the Mo-Ranch District Camp June 1-5. Karen Jungman will attend all 4-H Club meetings to report on her trip to the Round-Up June 10th and 11th.

**Guest Days:** Home Demonstration Clubs are holding Guest Days. There will be 18. Each club will entertain another club. Then each club will entertain their families with a community picnic. The agent will not be able to make these 27 events in the county but will work on demonstrations, visit demonstrators and complete the 4-H Yearbook and work with the yearbook committee.

**Yearbook for 1954:** Seems early to be thinking of the 1954 year books but Medina County's were late last year. Mrs. G. C. McAnelly, county yearbook chairman will hold a meeting in the agent's office in Hondo on June 15 to work on the yearbooks. Each club is to have their suggestions in by then. The meeting is set for 2:00 P. M.

**Meals from the Freezer:** The agent has met 5 home demonstration clubs giving this demonstration. After meeting the Yancy Club in the home of Mrs. G. C. McAnelly this Tuesday, Rio Medina at the home of Mrs. Stin-

son Thursday she will meet the Biry Club on June 23 and the Natalia Club on June 26th.

**Recipe of the Week: Broiled Chicken:** Be sure and use young tender chicken for broiling. The popular size is 2½ pounds and under.

1. Use chickens split in half lengthwise for broiling. Break drumsticks, hip and wing joints to keep bird flat during broiling.

2. Skewer wing and leg to body to make a compact flat piece of the chicken.

3. Season each half chicken with about ¼ teaspoon salt and 1-16 teaspoon pepper.

4. Place chicken on broiler (not rack). Brush with melted fat and then place skin side down.

5. Place in broiler 5 to 7 inches under heat source. Broil slowly.

6. Turn and brush with fat 2 or 3 times during broiling to brown and cook evenly. Total cooking time varies from 35 to 50 minutes.

7. Serve with pan drippings poured over chicken.

Serve with it new potatoes, green beans, peach salad, Parkhouse rolls, lemon milk sherbert, spritz cookies and iced tea.

**Summer Flowers for Winter Pleasure:** Plant annual flowers

his summer for fall blooms to be dried for winter arrangement. Celosia, also known as cockscomb comes in several varieties and colors. The deep red retains much of its color after drying. Tinged varieties may be tinted or sprayed to obtain brighter colors if they appear drab after drying.

Another popular flower for hot summer months is the gomphrena or purple bachelor button. Colors range from white to orange and from pink to deep purple. You can dye the light colored plants to be used in the same way that strawflowers are used.

Helichrysum is another popular flower for drying. Often called strawflower because the petals seem dry and straw-like, the flower comes in many colors ranging from white to deep colors. Cut the natural stem and wire to help make corsages or flower arrangements when the

flower is dried. They are best picked before the blossom fully opens.

Several varieties of blue sage or salvia are native to Texas.

These plants can take the hot dry summer weather and are easily dried to last for many months.

Ornamental grasses such as fountain grass can be included in the landscape plantings for later use.

The Biry HD Club met in the

home of Mrs. John F. Neuman on June 2nd. The meeting opened with the creed and Mrs. Paul Bendele gave the council report.

Plans were completed to entertain the LaCoste Club on July 14

at the Biry School house, while

other plans were discussed for

the club's annual social to be held

some time in August.

Mrs. Paul Bendele gave a demon-

stration on Lemon Pork Chops

with pepper and rice rings.

The next meeting will be held

at the home of Mrs. Alfred Neuman on June 23 with their agent.

## Castroville Indians Down Hondo; Boehme Holds Quihi To One Hit

### LaCoste Athletics Come Back In Win Column With 3-2 Triumph

Highway 90 League baseball over the past weekend found the Castroville Indians taking advantage of the breaks to edge the Hondo Braves 9-7 under the lights at Hondo last Friday evening, while the Rio Medina Tigers blasted Quihi 17-2 and LaCoste trounced Macdona 13-3 in Sunday afternoon affairs.

Harold Keller and Billy Tschirhart combined efforts, limiting the Hondo nine to 8 hits, but wildness on the part of both kept them in constant trouble from the sixth inning on. Tschirhart received credit for the win, while Keller had blanked the Braves through the first 5 frames before losing his control in the 6th. Keller helped his own cause by blasting a roundtripper in the 4th frame.

LaCoste Athletics fought their way back to the win column with a 13-3 triumph over the Southwest Cubs in another Sunday afternoon game, played at Macdona. Clinton Bippert on the mound for LaCoste limited the Cubs to 6 hits. Franger, L. Keller, F. Keller, F. Ehlinger, and A. Keller blasted Macdona pitching to lead the Athletics to the win.

### Little League Nears End Of First Half Of Split Season

With the first half of the Medina Valley Little League coming to a close the Lytle Tigers are setting on top with an undisputed first place. The second half of the split season will begin on June 22. The winner other than Lytle, will play the Tigers for the league championship at the end of the season.

About August 1st, the tournament play will begin in which the All-Stars of the league will participate. This tournament can eventually lead to the Little League World Series in Pennsylvania.

All league games will be played on Friday nights at 8 p.m. After each team has played 10 games a tournament will be held in which the 3 top teams will compete for the trophy.

The Hondo Hurricanes their first league game last day when they beat the Palominoes 25 to 3. The Hurricanes next league game will be Friday the 12th, at Dilley.

## WHY I'M GLAD I'M AN AMERICAN

The Anvil Herald will reprint here outstanding essays by students of the Hondo High School Civics Class 8-B. The subject on each will be "Why I'm Glad I'm An American".

By Charles Tilley

"We, the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution of the United States of America."

America was settled back in the early 1600's. It's principle purpose was freedom. This includes freedom of speech and life, religion, etc. I feel that I am here to have a hand in keeping that freedom. I believe that each and every person in America was put here for a purpose. Some live more freely, but in the sight of God they are all created equal and should be treated equal. I think that in years from now every country in the whole wide world will try to be an America. Yes, I'm proud of America, and I'm glad I'm one of it. Believe me, if there is anything in the future that I do to help her to grow I'll do it because I was born in America and I like it here!

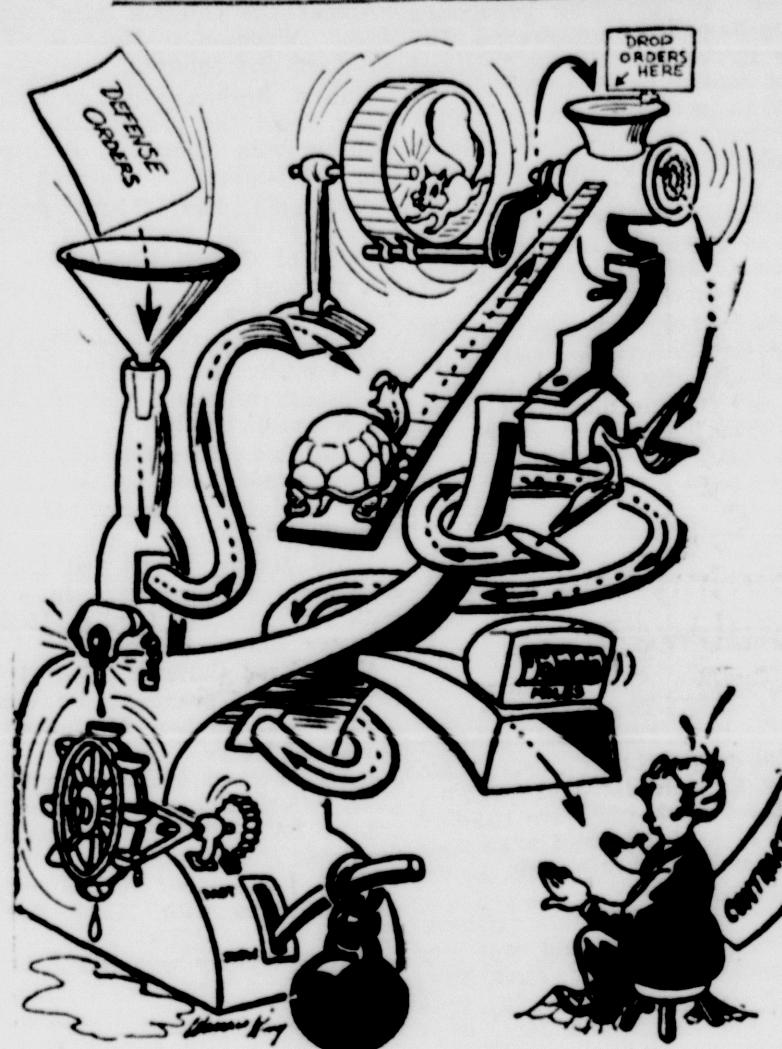

## ABANDONMENT OF PARK LAND

Prior to any hearing for the purpose of considering the abandonment of land designated as a county park, notice must be given so that interested citizens may attend and express their views on the subject. The law\* sets out the requirements:

"If any parcel of land shall have been dedicated as a county park which may be undesirable for park purposes, the County Commissioners Court of such county, on the application of any person, or upon its own motion, shall hold a hearing to determine whether said parcel of land shall be closed and abandoned as a park. Notice of time and place of such hearing and of the issues to be determined shall be published in the English language once a week for three (3) consecutive weeks preceding such hearing in some newspaper published in said county. The said publications shall appear not less than twenty-one (21) days immediately preceding the date set for such hearing. Said notice shall contain a brief description of the parcel of land and shall state at such hearing such County Commissioners Court will determine whether or not such parcel of land shall be closed and abandoned as a park and shall direct all persons interested to appear at the time and place of such hearing to contest the closing and abandonment of such parcel of land as a park if so desired to do so. If there be no newspaper published in the county, the County Commissioners Court shall then give such notice in writing at the Courthouse door of such county, for at least twenty-one (21) days successively next before the date set for such hearing."

### COTTON AND OIL TALK

#### Cotton Exports

News from the world's cotton markets is that exports of American cotton are running more than 50 per cent below the 1952 level.

This may be a temporary sales slump. But some observers fear it is the beginning of a long-term change in the pattern of marketing. Texans, remembering that the depression had its roots back in the 'twenties when our export markets started slipping away, will watch this situation carefully.

Note: Wheat exports also are falling substantially.

#### Oil Imports

Oil also is of tremendous importance to Texas. Imports of foreign oil into this country are viewed with continuing concern.

The Administration appears to stand on middle ground. Secretary of the Interior McKay has said the industry must solve the problem through the exercise of "industrial statesmanship."

General Ernest O. Thompson of the Texas Railway Commission has taken a somewhat similar position. He thinks the industry should voluntarily restrict imports. The alternative, he warns, is likely to be some type of Government control. We don't want that.

#### Austin Attorney To Head State Bar Association

AUSTIN—Everett L. Looney, Austin attorney, has been elected president of the State Bar of Texas in a statewide election just completed among the state's 11,300 lawyers.

R. V. Nichols of Fort Worth was elected vice president.

## Traveling Around Texas

### The Davis Mountains

The highest point in the United States east of its meridian is Guadalupe Peak in the Davis Mountains. Guadalupe Peak reaches a height of 8,751 feet, and is a part of the Guadalupe Range.

### Largest Swimming Pool In The World

At the entrance to the Davis Mountains in West Texas is Balmorhea State Park. Balmorhea includes approximately 50 acres around beautiful San Solomon Springs on U. S. Highway 290. The park is noted for its possession of the world's largest walled swimming pool, fed daily by the 26 million gallons of water from the springs. The buildings at Balmorhea are of Spanish architecture, and include a concessions building with bathhouse, a terrace for dancing, a dining room and 18 cabins for overnight, weekend or lengthy stay.

### Fort Davis

Fort Davis, the county seat of Jeff Davis county, is the highest town in the Davis Mountains, and is located at an altitude of 5,050 feet, but with some portions more than one mile above sea level. Fort Davis was named for Jefferson Davis, Secretary of War around 1854. There are many interesting old buildings that withstood the early activities against Indians, and pioneer ranching development. The scenic beauty and invigorating climate attract tourists yearly.

Here at Fort Davis there are such notable canyons as Cherry, Madera, Musquiz and Limpia, many with perennially flowing streams. The soils are clay, loam, intermountain wash, with some dark in the valleys. Pine, cedar and oak timber are in abundance in the mountains, in addition to deposits of metallic minerals and building stone.

The main crops for this community are apples, which are the main cash crop, yielding as much as 40 thousand bushels in 1946; there are also pears, peaches, apricots, plums and some feed-stuffs grown here. There is a limited crop production entirely from irrigation, and located for the most part in the Limpia Valley. While there is good cattle crop, sheep and goats are the chief livestock.

Atop Mount Locke is the McDonald Observatory, which is a part of the University of Texas, and is one of the nation's noteworthy observatories.

The State maintains park and lodge in the Davis Mountains located on the Davis Mountains State Park Highway, a 74-mile loop through mountains with many flowing streams, and rare scenic beauty.

### Indian Lodge

The Davis Mountains State Park is very popular with the tourists for its mile-high climate, its views of Texas' principal mountain peaks and its comfortable and famous Indian Lodge. This wonderful old lodge building is an adobe structure reminiscent of the cave dwellers and is constructed at different levels so that most of the 16 rooms and apartments have different views of the mountain area. The park covers an area of 1,541 acres and its lodge is about 5 miles west of historic Fort Davis on the same scenic drive that leads to the McDonald Observatory. The facilities include a dining room, dancing, riding trails and picnic areas. It is always best at this time of year to write the superintendent of the park for reservations.

### Mountain Ranges

The principal mountains of Texas are found in the Trans-Pecos where the eastern ranges of the Rocky Mountain system from New Mexico to "Old" Mexico, El Capitan with an altitude of 8,078 feet, rises 5,000 feet above the Salt Flats at its base. It projects from New Mexico into Texas in the northwestern part of Culberson County.

### Old Baldy

Mount Livermore, rising to 8,382, also known as Baldy Peak, and Old Baldy, because of its barren rocky summit, is the second highest mountain range in Texas. There are also in the Davis Mountain range Sawtooth Mountain at 7,748, and Blue Mountain at 7,330. The Chisos Mountains, Chisos is Spanish for ghosts or spirits, capped at 7,835 feet by Mount Emory, and Lost Mine Peak at 7,550, rank third among Texas mountains in elevations above sea level, and rise more than one mile above the Rio Grande at their southern base.

The canyons, formed by centuries of erosion, in the Davis Mountain area are mostly located where the Rio Grande cuts its way through a succession of north and south ranges, of which Santa Elena is the most noteworthy, a gorge with perpendicular walls about 1,600 feet high. The Boquillas Canyon is less spectacular, and there are several other gorges on the Rio Grande between Boquillas and the mouth of the Pecos. The Maravillas and other canyons of this region are formed by tributaries of the Rio Grande. Capote Canyon is formed by a stream that flows into the Diablo Bolson. The Box Can-

yon is also a noteworthy gorge. When first approached from the surrounding plateau, the mountains have a barren aspect, but the interior of the region, where clouds deposit more moisture, is green with grass and trees, especially after the rainy season.

## Fletcher Davis Broadcasts

### SOME RANDOM THOUGHTS

#### ON PEOPLE AND THINGS

#### AS HE VIEWS THE

#### PASSING SCENE

There is an ancient and (generally) honorable adage: "Leave sleeping dogs lie." We presume that those carping critics who censured Senator Price Daniel for coupling Texas' treaty rights to her Tidelands with the broader and basic claim of states' rights will, now that he has won, refrain from emulating the proclivities of the roused canine. \*\*\*

If we understand Mr. Lippman's proposed strategy in our present dilemma he would have us start another war in eastern Europe to divert attention from Korea. That would be good strategy if it succeeded in drawing our enemy from Korea—where we have "gone it practically alone" to the cost of nearly 140,000 casualties and some \$15 billion dollars—and bring our recalcitrant "allies" to our aid. In view of their behavior in our present struggle, however, what assurance have we that it would have either effect? After proposing such a wild adventure, he gives it a strange twist by offering the warning—which we might well heed—that "great powers at the zenith of their strength have gotten themselves into wars that bled them and wasted them and from which they never fully recovered." Just such a course we are now following in Korea and which his advice to start another war in Europe would make doubly serious. Consistency, is not Mr. Lippman! \*\*\*

The protracted drought in this area has practically destroyed all prospect of our corn crop producing any grain. One farmer with 120 acres in corn in presenting a friend with a basket of roasting ears, remarked that they represented the grain yield of about ten average acres of his crop. Mindful of a forage shortage later on, many are cutting, curing and binding the immature plant in order to preserve that much of its value. Where not practical, because of lack of sufficient growth to make cutting and binding practical or lack of other facilities for preserving the forage, as a last resort cattle are being turned into the fields. In this emergency, the man with a silo, who could cut and store his crop in ensilage, would come out with least loss by preserving the entire stalk in an edible form for his stock without any loss from hardening of stalk and shattering of leaves while waiting for it to cure and handling after it dries.

Blessed are they who have a sense of humor. Thrice blessed are they who can laugh when the joke is on themselves. A lady recovering from serious wounds inflicted by two vicious dogs, relates that in telling friends, among them a five year old boy, that God helped her or she would have been killed the little fellow with typical childish frankness, remarked: "I don't feel like God had any thing to do with it; they just didn't like the taste of you!"

### SECO PHILOSOPHER SAYS

## HE HAS PROOF THE SOUTH WON THE CIVIL WAR AND HE'S SATISFIED

Editor's note: The Seco Philosopher on his Johnson grass farm has an odd idea this week, which we publish without comment. May be a few Yankees living around here.

### Dear Editor:

All my life I've heard it said the Yankees have more stamina than the Southerners, more drive, more get-up about 'em, if you want something done, give it to a hard driving Northerner. Don't turn it over to a drawin' slow-movin' Southerner, and while this never has bothered me, in fact, it suits me fine, I recognize the wheels of industry and commerce and literature have got to keep turnin' and if the Yankees want the job I'm perfectly willin', never did see a wheel that had a place on it to fit my shoulder, but there are some Southerners who don't like it.

They resent it. They argue about it. They get up before daylight to prove they've got as much energy as anybody. Now while it never has affected me that way, I figure energy is something you don't have to prove, it's like money, you spend it recklessly to yon of the Pecos below Sheffield is also a noteworthy gorge.

When first approached from the surrounding plateau, the mountains have a barren aspect, but the interior of the region, where clouds deposit more moisture, is green with grass and trees, especially after the rainy season.

This is such a satisfying conclusion, such devastating proof the South has more energy and staying-power than the North, that as far as I'm concerned that ends the argument and I intend to rest on my laurels from now on. The South can rise again if it wants to, but as for me, personally I'll continue sittin'. Yours faithfully, J. A.
